“There is a crack in everything.  
That is how the light gets in.”

– Leonard Cohen

“I have great faith in the power of  
the visual and especially in images  
of nature, which I personally believe  
is the best doctor and teacher. I find  
the finest compositions in nature and  
I am forever looking for the best light.  
I often find it in a pond, by an old tree  
or in a large pipe.”

– Eilen Austli
